[BY ASSOCIATED PRESS WIRE.]

TURKISH HEADQUARTERS, BE-  
FORE DOMOKOS, May 17.—[Delayed in  
transmission.] The great battle  
fought well into the night ended. The  
combat can only be described as in-  
decisive. The fighting raged from  
early morning until long after dark.  
When the last dropping shots were  
passing over the field, the advantage  
did not appear to rest with either side.  
The Greeks maintained their posi-  
tions, having acquitted themselves so  
well as to have earned the hearty  
praises of the Turks. They resisted  
with stubborn endurance the attacks  
of the Ottomans through the livelong  
day, and still held their entrenchments  
at nightfall. The Turks made a su-  
preme effort late this evening, but it  
was met with the utmost bravery upon  
the part of the Greeks, and failed.  
The Turkish losses were heavy. The  
left division of the Turks was engaged  
from 9 o'clock in the morning, and ap-  
pears to have succeeded in forcing  
back the Greek right wing.

### ABANDONED ALL POSITIONS.

TURKISH HEADQUARTERS BE-  
FORE DOMOKOS, May 18, 6 a.m.—  
[Delayed in transmission.] In the night  
the Greeks abandoned all their posi-  
tions. Two and a half divisions of  
Turks are now pursuing the enemy.

The Turkish troops were in move-  
ment at an early hour, most of the  
divisions leaving Pharsala at dawn,  
led by the Circassian cavalry, which  
acted as skirmishers during the early  
part of the engagement. The real  
fighting began about 11 o'clock when  
the Turks encountered a squadron of  
Greek cavalry occupying a village on  
the plain before Domokos. After a  
sharp exchange of shots, the Greek  
squadron retired from the village and  
retreated toward Domokos. This pre-  
liminary skirmish was the signal for  
the Greeks to prepare all along the  
line to receive the Turkish attack.

One of the Turkish divisions was  
led by its bands of music, and the  
troops moved forward as though on  
parade. The Greeks had established  
vances, the movements being gov-  
erned by the fire of the artillery. Soon  
the engagement was general, the mus-  
ketry fire increased in energy and the  
booming of the field-pieces became in-  
cessant. The guns of the Greeks were  
splendidly aimed, and succeeded in  
putting one Turkish piece out of ac-  
tion, but the Turkish artillerymen re-  
venged themselves by plunging a shell  
into a Greek caisson filled with ammu-  
nition, and it blew up. During the ar-  
tillery duel the main bodies of the  
Turkish infantry opened fire at long  
range in order to discover the positions  
occupied by the enemy. The Greeks  
were not long in replying. No sooner  
did the Turkish commander "feel" the  
enemy accurately, than he pushed for-  
ward his irregular troops to the at-  
tack. The latter advanced with great  
spirit and, in the face of a hot fire,  
drove the Greeks from several of their  
advanced positions.

But, if the fighting had been gallant  
and desperate on both sides up to the  
present, it was still more so from this  
time on. The firing on both sides be-  
came really terrific. The sun was get-  
ting near the horizon, and both sides  
realized the importance of achieving  
siege-guns on the summits of the hills  
around Domokos, and these pieces  
opened the engagement with a well-di-  
rected fire upon the massed battalions  
of Turks advancing from the foot of  
the hills. Although the Greek artil-  
lery was admirably handled, it had no  
material effect in checking the Turk-  
ish advance.

Suddenly, at a given word of com-  
mand, the Turkish troops deployed to

the right and took up a position be-  
hind a hill, where they waited while  
the wings of the Turkish army com-  
pleted their forward movement.  
Then followed a period of suspense,  
during which the Turks steadily took  
up the positions assigned them, and  
at last, at 3 o'clock in the afternoon,  
the Turkish artillery opened fire. The  
Greek guns replied, both sides ex-  
changing shell fire for about an hour  
with no very great results. Toward 4  
o'clock, Neschel Pasha, who com-  
manded the advance on the Greek po-  
sitions, ordered the infantry brigade  
to advance. The bugles sounded and,  
taking advantage of every inequality  
of ground, the skirmishers, little by  
little, crept up to the first position held  
by the Greeks. The spitter-spattering  
fire of the skirmishers was answered  
by a long, grinding rattle of musketry  
from the Greek entrenchments forming  
the long line, which was well held by  
the Greek infantry, and which com-  
manded the approach from the plain.

The preliminaries over, a terrific  
combat commenced. The skirmishers  
increased the rapidity of their fire,  
the main bodies of the Turkish forces ad-  
vanced and the fighting grew more ad-  
vanced. The bugles sounded and,  
taking advantage of every inequality  
of ground, the skirmishers, little by  
little, crept up to the first position held  
by the Greeks. The spitter-spattering  
fire of the skirmishers was answered  
by a long, grinding rattle of musketry  
from the Greek entrenchments forming  
the long line, which was well held by  
the Greek infantry, and which com-  
manded the approach from the plain.

It was then 7 o'clock in the evening,  
and neither side had gained any very  
great advantage. The Greeks stub-  
bornly resisted the advances of their  
enemies, but the soldiers of the Sultan  
gained ground and were fighting  
with as much dash and brilliancy as  
when the first cannon shot announced  
the opening of the engagement. The  
sun fully disappeared, and darkness  
spread slowly over the blood-stained  
country, but the fierce combat raged  
on uninterrupted and with unabated  
vigor.

Toward 9 o'clock the Greeks, having  
gallantly held their entrenchments  
against superior forces and having  
given proof of the greatest coura-  
ge, began to slacken their fire.

The firing of the Turks at the same  
time also abated and soon it ceased al-  
together on both sides. While the main  
fight was in progress there was a  
sudden change in the position of the  
Turkish right, intended to outflank the  
Greek left. But the Turkish com-  
mander at that point was too slow, and  
he allowed a whole division to be  
stopped by a few Greek batteries, who  
inflicted heavy losses on the Turkish  
forces.

On the other hand, the Turkish ar-  
tillery on the left of the Ottoman line,  
which had been pushed forward by way  
of the main, succeeded in forcing back  
the Greek right nearly to Domokos.  
But taking advantage of the great  
number of Turks, the battle re-  
flected the greatest credit on the  
Greeks, and certainly was in no way  
discreditable to the Turks.

The loss of Turkish forces during  
the day's fighting was quite heavy,  
and it is now believed the Greeks lost  
as many men as the Turks. But it is  
impossible to obtain accurate figures  
on the subject.

### HOSTILITIES SUSPENDED.

Dispatches from Lania-A Panle  
Prevailing There.  
[BY ASSOCIATED PRESS WIRE.]

ATHENS, May 19.—[By Atlantic Ca-  
ble.] A dispatch from Lania, dated  
10 o'clock this morning, states that  
the white flag has been hoisted be-  
tween the armies of Turkey and  
Greece, and that Prince Constantine  
has been ordered to suspend hostilities  
with a view to concluding an armis-  
tice. A panic prevailed at Lania, owing  
to the report that criminals are to  
be released from the jails. The ar-  
rival of troops during the night in-  
creased the general feeling of terror.

The army of the Crown Prince has  
retreated from Lania, and the Greek  
army has been reinforced by Gen. Smolenski's  
brigade and troops dispatched to the  
front from Athens yesterday.

COUNTER-PROPOSALS.  
PARIS, May 19.—It is semi-officially  
announced this evening that the  
ambassadors to Constantinople are draft-  
ing counter-proposals to the Russian  
proposal, and that a note to the Turkish  
government to serve as a basis for  
preliminaries in the peace negotia-  
tions.

NEW LINE OF DEFENSE.  
ATHENS, May 20.—The government  
has ordered Gen. Smolenski to occupy  
the towns of Neos Makris and Neos  
Makris, which will constitute the chief line of  
defense.

A dispatch just received (2 a.m.) from  
Arta says that when the Greek and  
Turkish delegates met yesterday  
to discuss the armistice, the latter de-  
clared that they would submit the  
proposal of the Greeks to Edhem Pasha,  
and pending the arrival of instructions  
from him, would agree to an armistice  
for twenty-four hours.

### UNEASINESS IN ATHENS.

LONDON, May 19.—The Times' cor-  
respondent at Athens says: "The news  
of a fortnight's armistice has caused  
a general feeling of uneasiness here.  
Telegrams are much delayed, and the  
strangest rumors are current. Reports  
of panic have been received from all  
the districts around Lania and  
Styllis. The Turkish attack at Pourka  
and other positions in the Othrys  
range has compelled the army to re-  
treat toward Orina and Thermopylae,  
while the disorganization of the Fourth  
Infantry Regiment at Aidiniza threat-  
ens the retreat of the main force."

WILLIAM PRESSES THE SULTAN.  
LONDON, May 20.—The correspond-  
ent of the Daily Mail at Athens says  
that Emperor William wired to the  
German ambassador to Constantinople  
to obtain an immediate audience with  
the Sultan and press him  
strongly to agree to an armistice.

FULFILLED HIS WISHES.  
BERLIN, May 19.—The Frankfort  
Zeitung today says that, on receipt of  
the Czar's dispatch, the Sultan, before  
confering with the Council of Minis-  
ters, telegraphed to Edhem Pasha, the  
Turkish commander in Thessaly, order-  
ing him to stop further advance of  
Turkish troops operating against the  
Greeks, and also replied to the dispatch

## AFRAID IT WILL DROP.

This is what prevents the action of the allied powers.

of the Czar, saying he was happy to  
fulfill his wish. The Turkish Minister  
of War today contracted for 150,000  
Mauzer rifles.

### WILLING TO MODIFY.

LONDON, May 19.—The Daily Tele-  
graph's correspondent at Constanti-  
nople says that the Sultan has stated  
to Baron Calice, the Austro-Hungarian  
Ambassador, that he is willing to mod-  
ify the terms of peace which were for-  
mulated under the pressure of irrita-  
tion at fresh Greek attacks at Epirus.

### THE WILL OF ALLIES.

LONDON, May 19.—According to a  
dispatch to the Daily Mail from Vienna  
the Tagedblatt says: "The Sultan has  
consulted the Sheikh ul Islam, who has  
declared it to be the will of Allah that  
Thessaly should be reunited to Turkey.  
Should he act upon this religious  
prompting, it may be extremely diffi-  
cult for the powers to prevent his pur-  
pose from being carried out."

### ATTACKED THE PRINCE.

ATHENS, May 19.—An official bulletin  
just issued says: "The Turks attacked  
the army of the Crown Prince the mo-  
ment it reached the line of the Othrys  
range. The Fourth Infantry Regiment  
was dislodged from Aidinza, northwest  
of Lania, and the inhabitants are pre-  
cipitately evacuating Lania. The east-  
ern squadron had been ordered to pro-  
ceed to Styllis on the north coast of the  
Gulf of Lania, and there to land Col.  
Vassos and his troops. Gen. Smolenski  
has been appointed general of brigade,  
commanding the first division."

### WILL TAKE HOLD.

LONDON, May 20.—The Standard's  
correspondent at Constantinople says:  
"An imperial decree, just issued, orders  
the immediate dispatch of a commis-  
sion, including the German engineer of  
the Anatolian Railway, to inspect the  
railway in Thessaly, to repair it and  
to draw plans for its junction with the  
Turkish line to Monastir. This indi-  
cates an intention to transfer the line  
to the Deutsche Bank syndicate and to  
take permanent hold on Thessaly."

THE CONDITIONS.  
ATHENS, May 19.—Turkey demands  
as a condition of armistice that all  
Turkish territory in Epirus shall be  
evacuated and the Greek army shall be  
neutralized. A dispatch from Lania  
says that the bulk of the Greek army  
now occupies Pourka, and the Crown  
Prince is at Taratiza, near Lania.

### SHOT WHILE FLOURISHING.

Greeks Mowed Down by Turkish  
Shells While Waiting for Safety.  
[BY ASSOCIATED PRESS WIRE.]

LONDON, May 19.—[By Atlantic  
Cable.] The correspondence of the Daily  
News at Patras, describing the last re-  
treat in Epirus, with especial refer-  
ence to the experience of the Botzaris col-  
umn at Frumana, says: "The mistake  
of informing his weary, hungry  
and rain-soaked troops that they must  
retreat. There was a narrow escape  
from a panic. The men retreated with  
fair order to the shore, with the ex-  
ception of 200 who had apparently not  
been warned and were therefore either  
killed or taken prisoner. At the shore,  
however, a genuine panic ensued. The  
Turks were still quiet, but the Greeks,  
finding no boats, fell into despair and  
finally started to wade across the arm  
of the sea dividing the coast from Greek  
territory. It was a two-and-a-half-  
hours' job, the men floundering breath-  
high in the water."

"When dawn broke the Turks dis-  
covered what had happened and be-  
gan to shell the groups of waders,  
whose position became most disas-  
trous. At any rate, there were drowned  
some falling wounded or stumbling  
out of their depth. The condition of the  
force when it finally reached a place of  
safety was in the last degree lament-  
able."

The total loss of the Epirus army  
during the day's fighting was 500  
killed, 1000 wounded or missing, many  
of the latter of whom must be ac-  
counted for."

### AN OFFICIAL STATEMENT.

The Porte Desires of Showing Its  
Pacific Nature.

[BY ASSOCIATED PRESS WIRE.]  
CONSTANTINOPLE, May 19.—[By  
Atlantic Cable.] An official statement  
was published this evening, which,  
after briefly reciting the Turkish side  
of the war up to the battle of Domokos,  
says:

"The Czar sent to the Sultan a spe-  
cial telegram expressing his sincere  
sentiments in reaffirming the pacific  
views of the powers, and noting with  
appreciation the success of the im-  
perial troops, the capture of Domokos,  
forming the natural limits of the de-  
fensive operations and the government  
being desirous of giving fresh proof  
of its pacific intention, the Cabinet de-  
cided, and its decision was confirmed  
by an irade, to cease hostilities upon  
conditions to be arranged by the re-  
spective commanders. The conditions  
of peace, following the armistice, will  
assure the future rights and dignity  
of the imperial government, the frontiers  
of Turkey and the preservation of  
general peace."

## SPAIN SAID NO.

### Mr. Cleveland's Good Offices Refused.

### Senator Foraker Lets Several Cats Out of the Bag.

### Offers of Mediation by This Country Rejected.

A Report Supposedly from Gen. Lee  
Causeway, Senator in the Sen-  
ate—Names of Consuls Withheld  
to Save Them from Massacre.

[BY ASSOCIATED PRESS WIRE.]

WASHINGTON, May 19.—The secret  
archives of the State Department,  
which have held the consular reports  
of the Cuban war from the public,  
were partially disclosed today by Sen-  
ator Foraker of Ohio. During the past  
week the debate in the Senate has  
been pregnant with intimations and  
innuendoes of reports from United  
States officials in Cuba, held at the  
State Department, which, if published,  
would disclose a condition of Cuban  
soil which would influence public opin-  
ion in a decided manner.

The facts, therefore, which Senator  
Foraker announced, without stating  
from whom they came, created a de-  
cided stir. Especially startling was the  
letter from Secretary Olney to which  
this country offered mediation to  
Spain, and the refusal of that country  
to accept the proffered aid.

While one of the consular reports  
was read without comment, the au-  
thor being disclosed, it is stated to be  
a communication from Gen. Lee, who  
fully sets forth his idea of the condi-  
tions that exist in Cuba. The extract  
was quoted as follows, no date being  
given:

"I cannot understand the truth of  
the claim that all the provinces of the  
island are pacified except that of San-  
tiago de Cuba, because there are more  
insurgents under arms at this time  
than at the period of the war. The  
island, some ten months ago, and I  
do not think it a fair inference to draw  
from existing conditions that the war  
is approaching a termination be-  
cause, in pursuance of an established  
policy, the insurgents avoid as far as  
possible all serious engagements."

The impossibility of expelling the  
Spanish troops from this island by  
force of arms is well known to them,  
and they do not propose to risk the  
lives of their men, or the success of  
their cause upon one or more pitched  
battles. I conclude, therefore, that  
the war will drag its weary length  
along as long as the United States  
sustenance from the ground on one  
side, or money be obtained by the  
other, with the continued result of un-  
told human suffering and misery, in-  
cluding murder of innocent men, women  
and children by both sides, and the  
frightful havoc which disease makes  
in the ranks of the army and navy  
among the unacclimated Spaniards. The  
poverty and distress of the people are  
increasing, and the loss of property of  
all sorts daily becoming enormous.  
No one can fully appreciate the  
situation without being here in per-  
son. The number of poor, distressed,  
suffering women, children and old men  
of all races have greatly increased in  
this city within the past few weeks,  
while in other points on the island,  
the suffering has been proportionately  
great."

The letter of Secretary Olney to  
Spanish Minister de Lome, under date  
of April 4, 1896, is the one in which  
intervention is suggested. In opening  
Mr. Olney said: "It might be well  
deemed a dereliction of the duty of  
government of the United States, as  
well as a censurable want of candor to  
Spain, if I were longer to defer official  
expression, as well as to the world,  
which the President regards the exist-  
ing situation in Cuba as of his earnest  
desire for the prompt and permanent  
pacification of the island, and in giv-  
ing reasonable assurance of that re-  
sult and not inconsistent with the just  
rights and reasonable demands of all  
concerned, and on Spain's initiative,  
by him by all means which the Con-  
stitution and laws of this country  
place at his disposal."

"It is now nine or ten months since  
the nature and prospects of the insur-  
rection were first discussed between  
us. The insurgents seem today to com-  
mand a larger part of the tribute than  
ever before. Their men under arms,  
estimated a year ago at from ten to  
twenty thousand, are now considered to  
be at least two or three times as many.  
Meanwhile their discipline has been im-  
proved, and their supply of modern  
weapons and equipment has been  
greatly enlarged, while the mere fact  
that they have held out to this time  
has given them confidence in their own  
eyes and prestige with the Cuban  
people. In short, it can hardly be ques-  
tioned that the insurrection, instead of  
being quelled, is today more formidable  
than ever, and enters on the second  
year of its existence with decidedly  
improved prospects of successful re-  
sults."

Mr. Olney suggests that neither  
Spain nor the Cubans can reasonably  
object to intervention, and adds that  
if anything is to be done it should be  
done at once, and on Spain's initiative.

In closing, he says the communica-  
tion is prompted by the friendliest feel-  
ings toward Spain and the Spanish  
people, and adds: "To attribute to the  
United States any hostile or hidden  
purposes would be a grave and most  
lamentable error. The United States  
has no designs upon Cuba and no de-  
signs against the sovereignty of Spain."

Mr. Foraker read only the following  
extract from Mr. de Lome's reply,  
which was dated July 1, 1896: "In  
brief, there is no effectual way to pacify  
Cuba, unless it begins with the actual  
submission of the armed rebels to the  
mother country."

New State Highway Commissioners.  
Col. Smith Gets an Appointment.  
Flinnigan Freed—New Story  
About Minnie Williams.

## BY THE TIMES SPECIAL WIRE.

EL DORADO CANYON (Nev.) May 19.—[Special Dispatch.] Ahvote, the Indian, killed five men, Ben Jones, L. Fransen, Charles Neilson, Charley Monaghan and Judge Norton. Ben Jones was shot once, Fransen three times, Neilson once, Monaghan once and Judge Norton once. Ahvote, with a rifle from a Plutocrat called Batavia, started after him, being joined at Cottonwood Island by his brother, Steve, who found his tracks and came on his camp about 10 o'clock Friday morning.

They made a detour to get on a knoll so as to command his camp, and Ahvote following their tracks, rifle in hand. Batavia shot and hit Ahvote in the side, and he pitched forward, the other Indians being about sixty yards distant. Ahvote tried to work his Winchester, but did not have the strength. Ahvote then said: "Well, you got me." The Indians asked him why he committed the murder, and he said he was mad, but didn't give a reason, as he was satisfied.

Sheriff Fendall of Lincoln county arrived here Friday and went down the river to within three miles of where Ahvote was killed, where he found the two Indians, who had just come up from where they had killed Ahvote. The Indians shot Ahvote four times, wounding him with the first shot, and after talking with him a few minutes, finishing with three more.

Sheriff Fendall returned to the camp with the two Indians, and immediately sent them out with instructions to have Ahvote's body put in a casket as they could; that they must also get a horse. The Indians returned Sunday night, saying that two runners had been sent out, and that eight Plutes were guarding the different springs; that Moore would surely turn up and that he would be back tonight or tomorrow some time. The Indians were rewarded with a purse of \$100 for killing Ahvote.

Four of the men killed lived in Nevada, the other in Arizona, and the one whom Moore killed was also in Arizona. The Arizona authorities seem to take but little interest in the matter. Sheriff Fendall has done everything that possibly could be done, and is doing all that he can to catch the other murderer. The morning Ahvote left he had a quarrel with his wife, tearing her clothes and destroying everything belonging to her.

## A BRUTAL MURDER.

Mrs. James Berry (Colored) is Killed  
by Her Man.

## BY ASSOCIATED PRESS WIRE.

MODesto, May 19.—A most brutal murder occurred here shortly after 6 o'clock this morning. Mrs. James Berry, colored, was killed by her husband with a revolver. The excuse was that she was supposed to be a runaway, though friends of the woman declare there was no cause for any jealousy feeling. Berry misused his wife frequently. Only a few days ago he beat her because she talked to a neighbor and put her hand on her arm while in conversation.

Frequent threats have been made to take her to the home, and Deputy Sheriff Waterhouse took her to a neighbor's named Campbell. Berry found her this morning. She ran from the house to a neighbor's, only partially dressed. He followed and broke in the door in his efforts to get at her. She ran out at the back door, but he followed her, but missed. He then dragged her to Campbell's house, slapping and kicking her all the way. He followed her into the bedroom shortly after and shot her. She was found on the floor with a bullet hole in the breast. Death was instantaneous. Berry was arrested.

The examination takes place tomorrow. Much talk of lynching is heard this evening. Mrs. Berry was highly respected among the colored people here.

The Naval Officer Will Protect California Brandy's Reputation.

## BY ASSOCIATED PRESS WIRE.

SAN FRANCISCO, May 19.—Deputy Collector Tobin's report in detail as to the fraud in the San Francisco United States Bonded Warehouse Company on Bluxome street is that he discovered fifteen barrels of California brandy, 104 proof, had been mixed with eighty-five barrels of raw corn spirits, 190 proof, and the mixture reduced with water to 114 proof and labeled "Pure California Brandy."

Collector Wise has given permission to export the stuff to England on its changing the label to "California Brandy." Naval Officer Irish declares he will not allow it to leave the port, because the mixture would be a death-blow to the reputation of California brandies abroad.

## SCHWARTZ CASE.

A New Story Brought Forward to  
Help Durrant's Neck.

## BY ASSOCIATED PRESS WIRE.

SAN FRANCISCO, May 19.—A very important witness in the Minnie Williams case was discovered yesterday by Mr. Schwartz. She positively affirms that on April 12, 1895, the day before the body of Minnie Williams was found in the Emmanuel Baptist Church, she saw the unfortunate girl with the Rev. J. George Gibson on the Alameda ferry coming to this city. Mrs. Schwartz is an intelligent and observing woman about 30 years of age. She says her attention was attracted to the person who she identifies as Rev. Mr. Gibson because of his clerical appearance and the further fact that he carried the girl's basket and seemed very solicitous for her welfare. The Rev. Mr. Gibson's neck is somewhat disfigured by old scars, and Mrs. Schwartz says she observed such scars on Miss Williams' companion, and they served to impress the features of the man upon her memory.

Although Mrs. Schwartz is a resident of this city, and for the past two years has been aware of the fact that Theodore Durrant is accused of the murder, her reluctance to have her name involved in the notorious case in any manner has prevented her from appearing until now. She explains that she thought her testimony would not be necessary, but after Durrant had been sentenced to death and removed to San Quentin to await the execution of the judgment against him, she considered the matter carefully and decided it was time to reveal what she knew.

## ADDS TO HER STORY.

SAN FRANCISCO, May 19.—Chief of Police Lees in an interview today denounced the story told by Mrs. Schwartz, to the effect that she had seen Minnie Williams with Rev. J. George Gibson on an Oakland ferryboat the day before the girl was murdered as a fake conceived at the time of the trial and brought forward to create a doubt in the mind of Gov. Budd.

Today Mrs. Schwartz added to her story by stating that Minnie Williams had told confidentially that she was secretly married to a professional man, and further that the girl had had something about Blanche Lamont. What this latter statement was she declined to tell until she had seen Theodore Durrant in his cell at San Quentin and talked with him.

## SALVATION ARMY COLONY.

Claus Spreckels Will Give It a  
Chance to Raise Beets.

## BY ASSOCIATED PRESS WIRE.

SAN FRANCISCO, May 19.—The Salvation Army is considering a proposition to secure land in Salinas Valley for its proposed colony to devote to the cultivation of sugar beets. The suggestion was made by ex-Mayor Elliott at a meeting of the citizens' sub-committee on unemployed, held yesterday evening. Elliott and Maj. Winchell were appointed a committee to confer with Claus Spreckels on the subject.

"I shall be most happy to do everything I can to aid this project," said Claus Spreckels last night. "The idea is certainly a good one for many reasons. All that I shall ask on my part is that the thing be done on a large scale. If they prove to be so they will have no difficulty in not only making a living, but in acquiring a competency."

"What would be your plan for colonizing the unemployed on beet-sugar land?" was asked.

"I have about completed negotiations for 100 acres of fine beet land. This I am willing to rent or sell on easy terms to parties of colonists, and I will make it my business to see that they receive proper instructions in the practical work of raising beets. Further, I will make contracts with them to buy all the beets they raise for \$4 a ton."

## YOUNG WOMAN DISAPPEARS.

She Was to Come to Los Angeles to  
Give Testimony.

## BY ASSOCIATED PRESS WIRE.

BAKERSFIELD, May 19.—Much excitement prevails here tonight over the disappearance of Miss Nora Winch, a young lady about 18 years old. She lives here with her parents, and for some time has worked in the post-office. She was last seen on the streets last night about 9 o'clock, in the company of two women. She was seen when she came down town in the morning to make some purchases, preparatory to going to Los Angeles, where she was to appear as a witness in the United States Circuit Court in the case of the People vs. Garner, accused of counterfeiting. There is some suspicion that she may have been spirited away to prevent testifying in the case, but doubt is cast on this theory by no one knowing that Garner had influential friends to aid him. Officers are making thorough search, but no clew has yet been discovered.

They are quite certain that the three women did not leave by train, so the conclusion is that they were either hidden in town or on the way to Los Angeles.

She was accompanied by her four-year-old son. Her companion, who came with her from San Francisco, will meet her at Liverpool and sail by the same steamer."

"The Baroness says that Von Turkheim was smartly disappointed on arriving in London two weeks ago, and that the remittance he had expected was \$2000 short of the amount promised him. He did not know whether Mr. Delmas, Mrs. Craven's lawyer, had failed to send the amount agreed on, or whether Detective Stilwell secured it."

"It was while Von Turkheim was smarting under this disappointment that he revealed the Baroness's story, that he had married her in pursuance of a plot to get her out of the way. He suggested to her, then, that she should go to America, and together to make Delmas pay a large sum of money. The Baroness declares that if Von Turkheim ventures to return to San Francisco she will prosecute him for bigamy."

SPAIN'S MINISTER PLEASED  
WITH THE ADMINISTRATION.

Says the Spaniards are Stronger To-  
day Than They Were with  
Cleveland.

## DON'T OBJECT TO RELIEF WORK.

THE PRESIDENT'S MESSAGE WAS  
SATISFACTORILY WORDED.

Four Tons of Arms and Ammunition  
and a Cargo of Dynamite Prob-  
ably Landed—The Junta's  
Men-of-War.

(BY ASSOCIATED PRESS WIRE.)

WASHINGTON, May 19.—In an authorized interview with the President, Dupuy de Lome, broke his diplomatic silence and said: "I am going at once to call on the President and express my gratitude for his splendid action and kindly consideration shown in the wording of his message. Notwithstanding the activity of the papers that are hostile and unjust, our cause has again triumphed. We are stronger today with President McKinley and Secretary Sherman than we ever were with the Cleveland administration."

"Spain has no objection whatever to the United States helping her own citizens now residents in Cuba, and alleged to be in distress. The way that the charity is distributed is entirely the affair of the United States and not that of Spain. This government especially states that only Americans are to be relieved; therefore no authority is asked to feed the subjects of the King of Spain. If Americans have suffered through exigencies of war, it is their misfortune to be in Cuba at this particular time. Spain does not care if the United States maintain her citizens in luxury, so long as she distributes her bounty through the consular agents and only in the towns."

## VENEZUELAN SYMPATHY.

NEW YORK, May 19.—A special to the World from Caracas, Venezuela, under date of yesterday says:

"A resolution recognizing the belligerency of the Cubans was presented to Congress today. The resolution was opposed by the government. It was strongly supported by the blacks. After a lengthy debate, it was decided that the resolution was contrary to legislation, and that Congress had the power to recognize the belligerency of Cuba, even if so disposed. Thereupon a resolution of sympathy was unanimously adopted."

## WARLIKE MATERIAL.

WILMINGTON (N. C.) May 19.—Four tons of arms and ammunition and a cargo of dynamite were in all probability disembarked last night on the coast of Cuba by the steam tug Alexander Jones and the pilot John D. Long. Under the cover of darkness, and with lights out, the Jones, Thursday night, at a railroad wharf, took on a cargo consisting of two carloads of rifles, cartridges, machetes, provisions and medicines. The pilot-boat Long, Friday, took on a cargo of dynamite and was conveyed to sea, where it joined the Alexander Jones for Cuba.

## CUBAN MEN-OF-WAR.

CHICAGO, May 19.—A special to the Times-Herald from New York says: "Behind the movement for the passage of the Cuban belligerency resolution is a solid phalanx of Cuban sympathizers. It is to its most active supporters in Congress that four effective men-of-war, flying the Cuban flag, are only awaiting this recognition to take to the sea. These vessels, it is declared, will be obtained in England, and it is asserted that arrangements have already been perfected by which they will be manned, thoroughly equipped and be ready to sail the very day the belligerency of the Cubans is recognized."

## SAGASTA'S ATTACK.

MADRID, May 19.—Ex-Premier Sagasta, the Liberal leader, at a meeting last evening made a violent attack upon the government. He declared that the true granted by the Liberals was ended; that the policy of the government was dangerous, and must be vigorously opposed. He declared that Sagasta said: "We have 200,000 troops in Cuba, but we are not even masters of the territory trodden by the International Postal Union. We are not responsible for them, but it is unfortunate in its administration. Reforms in Cuba will not solve the Cuban problem."

The speech, which was greatly ap-  
plauded, portends stormy sittings for  
both chambers. Many Liberals predict  
that Señor Canovas will be driven  
from power within a fortnight. Pas-  
sions are thoroughly excited.

GOVERNOR DRAKE OF

## SPLIT POPULISTS.

That's What Agitation Over Pro-  
hibition in Kansas Has Done.

## BY ASSOCIATED PRESS WIRE.

TOPEKA (Kan.) May 19.—The agitation for the enforcement of the prohibitory law in Kansas renewed recently by the State Temperance Union as a result of open violation of the law in Topeka, has caused a split in the Populist ranks. Gov. Leedy appeared last night at a mass-meeting held by the temperance people. At the first meeting, a week ago, the Governor and his police commissioners were denounced for failure to enforce the prohibitory law. Gov. Leedy started the audience back a little denunciation on his own account. He declared that the State Temperance Association had fallen into the hands of agents of the railroads and corporations, and that they were making of it a political weapon against the Populist administration, instead of an instrumentality for good.

Gov. Leedy's remarks provoked a retort from ex-United States Senator Peffer. "I am ashamed of him," the ex-Senator shouted. Mr. Peffer declared the Governor's attack upon the temperance people, and intimated that the State administration was not sincere in its attitude toward the liquor traffic.

## HE SEEMED ANGRY.

Judge Wofford Disatisfied with the  
Course of Missouri Justice.

## BY ASSOCIATED PRESS WIRE.

KANSAS CITY (Mo.) May 19.—"It's beginning to look as if any man with money can kill another in this country and get clear."

This was the startling statement made by Judge Wofford from the bench of the Criminal Court yesterday. The judge seemed to be angry when he spoke. He said afterward that he was annoyed by the fact that several persons charged with murder and other serious crimes had recently been acquitted, their trials had resulted in hung juries. He had particularly in mind the case of Benjamin Cates, indicted for the murder of Mrs

## The Times

## ALL ALONG THE LINE.

Now that a man somewhat versed in the ways of reform schools has been called to the assistance of the struggling trustees and bewildered officers of Whittier, the sensations attending the present erratic course of that handicapped reformatory may become a trifle less monotonously frequent.

Delegations of visiting railway conductors and Southern California hotel-keepers are doing Catalina at the same time. These gentlemen will have some big fish stories to tell when they get back from the island, and what's more they will be absolutely true for "cons" and bonifaces never lie—that is, hardly ever.

Riversiders complain of having a bad taste in the mouth, as a result of the visit of the railway conductors. The Riverside Press goes so far as to say that the entertainment of the visitors was a case of casting pearls before swine. Other communities visited by the knights of the punch have regarded the courtesies extended them as bread cast upon the waters.

Baseball having run the gamut of the sports, the business men, lawyers, printers and editors of San Bernardino, it has at last infected the female population. One club has already been organized by the gentler sex and several others are being formed. They say the female twelfth sphere are becoming proficient in curves and slides, and will soon issue a challenge to the male baseball cranks to meet them on the diamond. As yet no man has been found brave enough to offer his services as umpire.

San Diego has at last been made happy by the visit of about five hundred of the O. R. C. delegates. The freedom of the city, the bay and the climate has been extended to the visitors, all of which is bread cast upon the waters, to return not many days hence. If the ticket-punchers themselves will not return again, they will at least sound the praises of San Diego throughout the United States and induce many patrons of the railroads to include the City of Bays in their itineraries when they travel West.

That which has long been wished for has come to pass—a Mexican Consul has arrived in Los Angeles, to stay here forevermore. He will look after the interests of citizens of the Mexican republic who have lost their relatives or been swindled, or want aid, advice, sympathy and comfort; he will work to stimulate trade between the two countries, and in every way endeavor to link together the two republics in bonds of friendship and business relationship. The Chamber of Commerce is to be congratulated on the success of its efforts to bring this to pass. Guillermo Andrade is heartily welcome to Los Angeles.

## MRS. MCKAY'S NEIGHBORS.

## An Eviction and an Arrest for Petty Larceny.

Mrs. Helen F. McKay, wife of David McKay of No. 146 West Fourteenth street, was arrested yesterday afternoon by Officer Long on a warrant issued to W. H. Williams by Judge Morrison, charging Mrs. McKay with petty larceny. The arrest seems to be the culmination of a six-months' quarrel. The McKays claim it is due to spite on the part of the Williams family, a result of the serving of eviction papers; the Williams family, that it was just retribution for sin.

Nine months ago McKay rented part of his house, facing to Williams and his wife. According to the story, the new tenants proved undesirable, and six months ago were requested to leave. This, he says, they refused to do, and repeated requests of a similar nature merely elicited the information that they would vacate only when it pleased their fancy to do so. May 12 Mrs. McKay concluded the information that during the absence of the tenants she collected their few belongings and placed them on the back porch. That night Williams, upon returning, simply broke open the door and resumed possession. An eviction notice was made out and served on the McKays, and the construction was faulty and consequently only laughed at it. As a form of retaliation, he procured a search warrant. He says that he found four sheets, four pillow cases, some knives and forks and a parlor lamp in Mrs. McKay's possession which were his property. Yesterday he obtained a warrant for the arrest of Mrs. McKay, with the result that she appeared at the Police Station yesterday in the amount of \$25.

The McKay and Williams families spent the greater portion of last evening in explaining the affair to inquirers and in applying uncomplimentary epithets to the opposing parties. McKay accuses Williams of breaking open his cellar door and stealing a diamond-studded Forrester's badge. Williams, who moved across the street yesterday afternoon, is said by McKay to be two months in arrears for rent. This Williams emphatically denies. Each man says all manner of uncomplimentary things about the other and the other's wife.

## Native Daughters Entertain.

Native Sons' Hall, on South Main street, contained a large and interesting assemblage last evening for the entertainment given by La Esperanza Parlor, No. 24, Native Daughters of the Golden West. A choice musical and literary programme was rendered, followed by a ball and banquet. The Native Sons were represented by about one hundred and fifty members of Los Angeles, Ramona and Corona. The committee in charge of the affair included Misses Lizzie Hookstratten, Emma Smith, Ed. Olin, E. Burke and L. Doherty, assisted by three Native Sons, Messrs. E. G. Hookstratten, Charles Bennett and F. W. Golding. A number of visiting members were present, including Mrs. Culverwell of Santa Cruz, and several from Ventura, San Pedro and other towns. There was a piano solo during the evening by Miss Ada Stone, a recitation by Miss Josephine Williams, a violin solo by Miss Beatrice Phillips, a piano duet by the Misses Doherty, recitation by Miss Phillips and a song by K. J. Brandt.

## GYMKHANA RACES.

## CHILDREN ACTIVELY ASSIST AT A BALLOON ASCENSION.

The Children's Matinee at Fiesta Park—Attractions Offered to Restless Young America—A Daring Flight and Daring Parachute Leap.

A remarkably slim and unenthusiastic crowd, crowded itself on the sunny tribunes at Fiesta Park yesterday afternoon, languidly watching a daring balloon ascension and some funny little attempts by small boys at grown-up gymkhana races. The balloon ascension had been announced for 2 o'clock, but it was 4:30 before the big gray ball finally shot up into the clouds. The two and a half hours intervening were broken at intervals by languid brayings from the band, which mingled its moanful notes with the discordant wheezes of the hurdy-gurdy on the merry-go-round.

It was supposed to be children's day, so small girls perspired and squirmed on the hard wooden benches, weighed down by the dignity of starched frocks and the surveillance of their mamma, and small boys scampered and whooped in unbridled glee. The merry-go-round spun dizzily with its load of shrieking little passengers, sleds shot down the toboggan slide with a rattle like a thunder, and Punch and Judy show in the corner attracted the stragglers. In the center of the arena the balloon hung from its ropes like a giant balloon, and a sausage encased in elephant skin. A circle of boys surrounded this fascinating monster, while other boys stood enviously around a group of pretty ponies and were regarded with bland patronage by the youthful riders.

At last the great gymkhana was opened. The first event was a sack race. A dozen small boys with their legs encased in gunny sacks hopped off like a bunch of kangaroos across the field and back again. One of these was a long-legged youth, who was bound to win. With clenched teeth and grim determination in his eye he clutched up his sack and hopped for the goal. Alas! It was the case of the hare and the tortoise. The long boy was almost within reach of the promised land when a little freckled imp whose short legs had plenty of room to trot inside his sack suddenly put such steam into those sturdy members that he waddled past the kangaroo hop and the leader and fell flat on his stomach across the goal, the winner by about two yards.

Two boys on bicycles trundled lazily around the enclosure, and the beginning and the ending was the second race. Then the ponies had a chance. A long brown pony was pitted against a peppery little pinto, and the two scuttled off just like two real horses. They went once around and were at the far end of the arena on the second turn when the little pinto suddenly rebelled. Whirling in his tracks he started for home the wrong way. There was a brief squabble between him and his master, and then the boy jumped off and disgustedly regarded the fat little delinquent, who put back his dots of ears and flapped his tail defiantly. The boy gave him a sharp lash with his whip, and the pony stood on his hind legs while he snorted violent disapproval of the whole system of corporal punishment. Then the boy kicked the pony and the pony's tiny hoofs prodded the atmosphere in the near neighborhood of the boy. After that the boy called it square and cantered contentedly back to the grand stand, where the winning pony had arrived some time before, entirely unnoticed by the crowd.

A foot race was the fourth and last event before the balloon ascension. Unfortunately, it failed to draw the crowd as the swarm of boys approached the winning post, a smart little dandy was in the lead. This was too much for a long, gangling white boy who was pounding along just behind the winner. The ineradicable boy nature asserted itself, and a sharp, detaining clutch on the arm of the victor brought forth hoots of "A foul, a foul!" from the spectators.

By this time it was growing late, and the appearance of a gentleman in cherry-colored tights and green trunk created a ripple of enthusiasm and a general rush of boys. This was the aeronaut, Prof. Marksbury, and his arrival was the signal for certain mysterious performances in the vicinity of the balloon, which caused that flabby article to assume the appearance of a wilted mushroom. It gradually expanded into globular form, and then shot skyward, bearing a dandelion parachute and a wriggling streak of cherry and green. At an appalling height, the parachute dropped and sailed gracefully downward, while the balloon turned upside down and smoked like a volcano. The parachute and the man alighted on somebody's back porch over on Moore and Eighth streets; the balloon landed in a heap on a convenient roof, and the children gave a final whoop as it dropped out of sight, and then scattered for home.

## RECLAIMING DESERT LAND.

## Work of the Blue Water Irrigation Company.

By the magic of modern irrigation methods 25,000 acres of desert land are being reclaimed near Blue Water, N. M. The enterprise is in the hands of Los Angeles. The Secretary of the Interior has just approved the survey, maps, field notes, etc., relating to the proposed work of the company, and the development will be pushed ahead.

The Blue Water Land and Irrigation Company contemplates greater things than any capitalists operating in New Mexico except the Pecos Valley Company. Blue Water is a station on the Atlantic and Pacific Railway, just 103 miles west of Albuquerque, near the western border of the Territory. When the company took hold of the project the land was mere desert, regarded as absolutely worthless, and to be bought for 10 cents an acre. The soil is extremely rich, and all that is needed is water.

A forty-foot dam has been built. During this coming summer the dam will be raised to a height of ninety feet, and when this is done there will be a natural overflow over solid rock at forty-eight feet. When completed, the reservoir will store 78,000 acre feet of water.

## NEW ENGINE HOUSES.

### FIRE COMMISSIONERS WANT PERMANENT BUILDINGS.

Propose a Large Bond Issue to Purchase Sites and Provide Buildings and Apparatus.

## TO ANNUL MRS. YOUNG'S DEED.

## KIEFER SAYS IT WAS EXECUTED WITH FRAUDULENT INTENT.

Mrs. Emily J. Adams Sues the Southern Pacific Company for Heavy Damages. A. Kelly's Will.

At the City Hall yesterday the Board of Fire Commissioners met in regular session. The commissioners decided to investigate the case of Capt. Brown's inhuman treatment of his daughter Mabel, without regard to Police Justice Morrison's decision in the matter. A proposition was also formulated for the issuance of \$150,000 bonds for the purchase of sites and erection of buildings for permanent engine houses.

At the courthouse yesterday a damage suit for \$25,000 was on trial before Judge Clark, and a suit to annul a real estate transaction and annul a homestead took up Judge Shaw's attention. Julius A. Kelly's will was offered for probate, and a Ballona Township Deputy Constable fined for battery on Constable Branscomb of Calabasas.

## BROWN'S MISCONDUCT.

### FIRE COMMISSIONERS WILL TAKE UP THE CASE.

They Were Ready to Condemn His Inhuman Treatment of His Daughter, but Decided to Give Him a Hearing at Their Next Meeting.

The Board of Fire Commissioners met in regular session yesterday morning. Commissioners Wells and Sabich were both absent on account of illness.

Fire Chief Moore reported that Capt. D. W. Brown of Chemical Company No. 5 had been arrested for cruelly beating his daughter, Mabel. On May 7 the case was tried before Police Justice Owens and four days later the complaint was dismissed. Brown, however, had been notified to appear before the board for such examination and action as the board might see fit.

Commissioner Sinsbaugh thought that a full board should be present at such examination. If the charges against Brown were true, he was not a proper man to be in the service of the fire department. The decision of the Police Justice was only in regard to Brown's legal right to punish his child, as he had been accused of doing. In his opinion the commission had to consider the moral duties of the fire service in any case where there was a flagrant violation thereof.

Commissioners Kuhrt and Mayor Snyder were of the same opinion, and the matter was therefore laid over for one week for consideration by the entire board. The commissioners were very outspoken in condemning Brown's conduct, as they felt yesterday, but they believed that Brown should be given a hearing for justice sake. Mayor Snyder added that frequent complaints had been made by Brown's neighbors about his treatment of the girl, and in his opinion it was a very serious matter and called for a full investigation.

An application was made by H. S. Baldwin et al. for a permit to maintain a Chinese laundry in March, 1895, by Fifth, Winston, San Pedro and Wall streets. It was referred to Fire Chief Moore.

Applications for appointment as firemen were received from F. W. G. Thrumm and Alfred S. Hamilton, and were filed.

The usual demands and requisitions were approved.

Commissioner Sinsbaugh then brought up the bond proposition suggested at a former meeting, involving the purchase of sites and erection of buildings for fire company quarters. He said he believed that, if the question of issuing bonds was properly presented to the Finance Committee of the Council, there would be no difficulty in carrying the matter through.

Commissioner Sinsbaugh also stated that \$125,000 or \$150,000 of four-per-cent. bonds could be issued and ample funds raised for the purchase of sites and the construction of thirteen buildings and the necessary apparatus. At the present time the city is paying for rent for engine houses \$8000 a year, or 4 per cent. on \$200,000, whereas by this change the city would own all the buildings, instead of only two.

After a full discussion of the question, Commissioners Sinsbaugh and Kuhrt were appointed a committee to look into the matter.

## An Early Protest.

Abbot Kinney, who owns a frontage of 404 feet, has filed a protest against the repaving of Main street between Eighth and Ninth streets. In his protest he says: "About \$500 will be paid in complete repair to the street between Fourth and Ninth streets. There is no need of the great expense of repaving the street. In any case, it is unnecessary to again assess the full paving of this street. On the narrow road lot belonging to me, have already paid paving bills on this street and Spring street amounting to \$2500, nor is there any just cause for this costly and unnecessary piece of work."

## Accepted the Ordinance.

John C. Lynch has filed his written acceptance of the ordinance granting him the right to operate an electric street railway along San Pedro street, adopted by the Council on May 11.

## Assessment Ready.

The assessment for the sewer on Wither street, Sixth street, Bixel and Fourth streets will be completed today in the Street Superintendent's office. It amounts to \$2920. W. A. Frick is the contractor.

## READING FOR REMOTE RAILROADERS.

Persons having back numbers of popular monthly magazines to give away may send them to the office of the Los Angeles Times. Such magazines will be used to good advantage by being sent forward to deserting railroad men at remote desert stations on the Atchison, Topeka and Santa Fe line. The giver is also requested to send address with the periodical donated from month to month. Due acknowledgment will be made in each case.

## ALLEGED FRAUD.

### AN ASSIGNEE'S SUIT AGAINST AN INSOLVENT DEBTOR.

O. H. Kiefer Asks That a Real Estate Transfer and a Declaration of Homestead Be Adjudged Void and of No Effect.

The trial of the suit brought by O. H. Kiefer, assignee of the estate of W. H. Young, an insolvent debtor, against W. H. Young and Nellie M. Young, his wife, was commenced yesterday before Judge Lucien Shaw in Department Five. The action was brought to obtain a judgment declaring the conveyance of a house and lot, made by Young to his wife, a fraud, and therefore void as against Young's creditors; also, that a homestead declaration under which the Youngs claim the house and lot as their homestead, and as exempt from execution, is fraudulent and void. The plaintiff further prays that the house and lot, described as lot 40 of Grider & Dow's Adams-street tract in this city, may be decreed to be a part of the estate in insolvency.

The complaint in the action alleges that on May 16, 1896, Young filed his petition in insolvency, and was on that day declared an insolvent debtor; also, that within thirty days next prior to the adjudication of insolvency mentioned, on April 24, 1896, Young owned a saloon, situated at the northwest corner of First and Los Angeles streets. The license to this saloon was held by F. Conrad, a brewer, as security for the sum of \$500. The saloon, says the complaint, was worth \$2200, but Young could not dispose of it without either obtaining Conrad's consent, or paying him the \$500.

Kiefer alleges that while Young was indebted to his creditors in the sum of \$1073.10, his whole indebtedness being for goods being placed in the saloon, and his credit being based entirely upon the saloon, he traded it for the house and lot above referred to in the following manner: Young sold the saloon to Henry Bickel and Frederick Kapp. They, as part of the consideration for the purchase, assumed the payment of the \$500 to Conrad and Bickel, in payment of the balance of the purchase price of the saloon, by a proper deed of conveyance, made by himself and wife, sold, at Young's request, the house and lot to Mrs. Young.

In defense Mrs. Young claimed that she bought the house and lot with her own money, and that her husband had not a cent of interest in the property. The case was submitted on briefs.

## A CALABASAS INCIDENT.

### Constantine Harvey Branscomb as a Complaining Witness.

Day before yesterday was spent by Assistant District Attorney Williams in trying a Calabasas case at San Fernando, in which Deputy Constable Hughes of Ballona Township was the defendant and Constantine Harvey Branscomb of Calabasas the complaining witness.

The prosecuting attorney states that the facts of the case, as gleaned from the testimony are as follows: Branscomb and a neighbor named Melendez had some trouble over a crop of wheat each claiming its ownership. Melendez sent for Hughes as a limb of the law to assist him to preserve for himself that which he considered as his own.

In the melee which ensued Branscomb tried to prevent Melendez from harvesting the grain, and Hughes arrested the Calabasas officer. The outcome of the affair was that Branscomb was discharged and Hughes arrested for battery. On Tuesday he was tried for battery before a jury in the Justice Court, found guilty and fined \$50. Hughes has given notice of appeal.

## HEAVY DAMAGES PRAYED FOR.

Mrs. Adams Attributes Her Accident to an Engineer's Carelessness.

The suit for damages brought by Emily J. Adams and her husband, L. J. Adams, against the Southern Pacific Company, was on trial before Judge W. H. Clark and a jury in Department Two yesterday. Mrs. Adams was injured severely in March, 1895, by being thrown from a one-horse carriage, in which she and her husband were riding on Alameda street. The horse became frightened at a blast from the whistle of a locomotive engine, and ran away, throwing Mrs. Adams out.

She struck upon the curbing and sidewalk and was rendered unconscious. Ever since, one of her lower limbs has been paralyzed and she has been compelled to use crutches to enable her to walk at all. Mrs. Adams alleges that the whistle was blown carelessly and negligently by the locomotive engineer, and asks that she be awarded \$25,000 damages for her injuries. The trial was continued until tomorrow, when the plaintiff will rest after the testimony of one witness has been taken.

During the last four months I have recommended it to a number of people who had suffered from an attack of Grippe, and in every case it has been of the utmost benefit in restoring tone to the system, increasing the appetite, assisting in giving the patient refreshing sleep, and in that way relieving that distressing cough which has in most every case followed an attack of Grippe in this locality, and I would heartily recommend it to every person who needs anything to assist the system after a sickness of any kind."

"On November 18, 1896, George Eley was recommended to the bishop for admission as a candidate for the priesthood.  
On November 5, 1896, the Standing Committee concurred in the election of the Rt. Rev. William D. Walker, D.D., missionary bishop of North Dakota, to be the bishop of the Diocese of Western New York.  
On November 18, 1896, the Standing Committee gave canonical consent to the consecration of the Rev. J. D. Morrison, D.D., LL.D., rector of St. John's Church, Ogdensburg, N. Y., as missionary bishop of Duluth.  
"The Standing Committee met at the request of the right reverend, the bishop, as a council of advice upon three occasions, viz., on July 3, 1896, February 3 and February 4, 1897.  
In accordance with a resolution passed by the convention, the Standing Committee, November 8, 1896, adopted form of parochial report, which was forwarded to the secretary of the diocese.

The report was followed. This action was followed by the reading of the report of the registrar by the Rev. Henderson Judd, which was also accepted "with thanks for his admirable labors."

The report of the treasurer of the diocese, George W. Parsons, showed the receipts to be as follows: Balance brought forward, \$210.92; personal pledges, Rev. John B. Kewell, \$100; Rev. B. C. Foute, \$100; Rev. E. B. Spalding, \$75; Rev. H. B. Restarick (credit balance last year \$18.66), \$33.34; Dr. H. C. Davis, \$100; Rev. G. E. Walk, \$32.34; Right Rev. W. P. Nichols, \$100; Rev. E. A. Hartman, \$75; Rev. C. F. Loop, \$25; J. B. Kewell Phillips (credit balance last year, \$4.17), \$20.83; H. C. Park, \$200; balance on hand, \$17.10; Episcopal endowment fund and settlement with diocese of California, \$454.84; church extension society (income), \$123.85; balance on hand, \$17.10; total, \$239.85. The sum total amounted to \$4002.07. The disbursements were: Right Rev. J. H. Johnson, D.D., \$4000; Church Extension Society (transfer), \$434.84; salary secretary of the diocese, \$100; salary treasurer of the diocese, \$100; printing bill, \$200; secretary's expense, \$15.72; treasurer's expense account, \$6.25; convention expense account, \$18.50; registrar's expense account, \$61.16; balance of cash on hand, \$41.60; total, \$4002.07.

Mr. Parsons also read the reports of the disabled clergy fund and the widows and orphan's fund. In the former it was shown that the receipts, including the balance from last year, amounted to \$5666.63. The disbursements were as follows: Transfer of funds to Church Extension Society, J. F. Towell, treasurer, \$3206.65; balance on hand (interest), \$259.98.

In the latter report, the receipts, with the balance from last year, amounted to \$1322.14. The disbursements were: Transfer of funds to Church Extension Society, J. F. Towell, secretary, \$123.85; balance on hand (interest), \$23.50.  
The convention then adjourned to the church, where the bishop delivered his annual address. The bishop, in feeling terms to those who were called away during the year, mentioning the loss of the Archbishop of Canterbury, the Right Rev. Arthur C. Cox, bishop of Western New York, and then to the loss of faithful laymen in his own diocese, F. P. Lefroy of this city, and the Laurence of Murietta. He dwelt at some length on the dictum of the bishop of Rome as to Anglican orders, and the response thereto by the archbishops of Canterbury and York. He outlined the progress made in the work of the diocese during the year, and referred to the spirit in which all church work can be successfully carried on. The bishop also laid stress on the binding force of the rubrics of the prayer-book, and urged that however tempted to seemingly desirable liberties, no breach of the church law was justifiable. He said that it is true that there is perhaps some vagueness about the rubrical directions for worship. The reason under such circumstances is plain. In this diocese there is a chancellor, just and fair, who will in an emergency assist the bishop in elucidating and vexed question that may be brought before him for decision. "With the prayer-book before one, with the English law, the prefaces of the American book to turn to, to gain further light in the emergency, there need be no doubt as to what is the voice of the church."

At the close of the address, Rev. S. M. Wren offered a resolution that "this convention has heard with pleasure that it is the intention of the bishop of Los Angeles to be present at the Lambeth conference, and desires to assure him that during his absence he will be followed by affectionate remembrance, and that in their prayers the members will not cease to claim for him the blessing of God's loving care." The resolution was put by the secretary and carried by a rising vote.  
A resolution was offered by the Rev. Milton Dotten, as to a proposed canon to be known as No. 86. Canon No. 86, Title II: "It shall be the office of the vestry to represent the parishioners both in their relation to the rector and in their care and zeal for the temporal and spiritual interest of the parish, and to cooperate with the rector in the protection of the church edifice, from all unwholesome, ordinary, and common uses. It shall be the duty of the vestry to do all in its power to protect and preserve the parish property from all uncertainty of title, loss of rights, perils of debt and mortgage, deterioration of the fabric, misuse of trusts and funds and the like; to provide for and secure the payment without default or delay, of the salary of the clergy of the parish, and of all other duly appointed helpers in its work; to make the necessary provision for and to encourage and sustain the rector in the administration of the worship, the ordinances, and sacraments of the church, according to the Book of Common Prayer; to assist him as far as possible, both by means and personal cooperation, in his agencies and methods for the maintenance of piety and good works; to aid in persuading parishioners and others to resort to the church on Sundays and

"The vestry shall forward in all practical ways the spiritual interests of the parish, as becometh Christian men holding sacred trusts, and so far as consistent with the headship of the rector in all things spiritual, he having unrestricted use of the church buildings for lawful church services, parochial societies and agencies, as well as control over its sacred music, its worship, its Sunday-school and all matters spiritual; bounden, indeed, to his parish for his fulfillment of the covenanted duties, pledges and trusts of the pastoral office as they are set forth by the church, but finally amenable for alleged irregularity in teaching, ministrations or life, to the ecclesiastical authority of the diocese only."

In the evening the Rt. Rev. Bishop and Mrs. Johnson received the clergy, the visiting delegates and the parishioners at St. John's Guild Hall.  
The convention will reopen at 9:30 o'clock this morning, with morning prayer, at St. Paul's. The special business will be the election of the standing committee of the diocese. The remainder of the time will be devoted to reports, election of boards and officers and miscellaneous business.

Promising Deposits of Gold and Iron Ore.  
The Eagle Mountain Mining District gives promise of developing into a paying camp. The district is in Riverside county, 18 miles east from Los Angeles, and is reached by going over the Southern Pacific to Walters, a trip of 143 miles, and thence forty-five miles by team by way of Cottonwood Springs to Eagle Mountain.  
The Eagle Mountain Mining Company has several claims on the northwestern base of the mountain. A shaft has been sunk in the mine to a depth of 103 feet, all the way through solid quartz, with the vein showing seven feet wide at the bottom of the shaft. The owners of these claims are W. E. Cummings of Los Angeles and Messrs. Wilbur, McIntire and Coon of Riverside.

Three miles further south is the Iron Chief gold mine, owned by Messrs. Beach, Stevens & Co. At the face of the eighty-foot level the vein is about seven feet wide. Several carloads of ore from this mine have been shipped from San Francisco, where they yielded returns of upward of \$100 a ton. Eastward from the Iron Chief mine, in some places carrying considerable quantities of gold. Not far distant are bodies of iron ore, the secondary formation. Wood and water are not more than six miles distant.

The lectures will be explanatory of Catholic doctrine, and the subjects will be respectively: (1) "Christian Realism," (2) "A Hard Saying," (3) "The Spirit Quickens the Soul." It is desired that people attending the lectures should bring their Bibles with them.

**100 CENTS ON THE DOLLAR.**  
That is what we were offered yesterday for our entire stock and good will by a leading Denver merchant. It was a big offer, but we refused because our business has a reputation that is worth a large premium, and because we don't want to sell out. The Denver merchant knows our stock is more free from old carried-over styles than any clothing house on the Pacific Coast. That is why he made the offer. Our methods of making things move is the preventive for having goods grow old on our hands.

## BUSINESS.

## FINANCIAL AND COMMERCIAL.

**OFFICE OF THE TIMES.**  
LOS ANGELES, May 19, 1897.  
**PITY THE POOR BANKERS.** If one were to judge by the returns handed in by the banks to the City Assessor, those institutions might be considered on the verge of bankruptcy, as far as available cash on hand is concerned. However, these figures must be taken more or less in a Pickwickian sense. The Farmers' and Merchants' Bank gives in \$41,566.54; the German-American Savings Bank, \$43,536.71; the Main Street Savings, \$41,215.35; the Security Savings, \$11,649; the East Side, \$27,533.82; the State Loan and Trust, \$23,019.68; the Los Angeles Savings, \$50,000; while the Los Angeles National Bank reports having no cash on hand. Those in search of a loan on good security need not, however, refrain from calling.

**COMMERCIAL.**  
**BIG ONION IMPORTS.** The steamship Bovic, which arrived recently in New York, had 14,372 packages of Egyptian onions consigned to various New York merchants. This is the largest quantity of foreign onions ever imported into the United States by one steamer. So large an importation depressed the market, which had been ruling at \$2. A sale at auction of 500 sacks of the onions, from \$2.25 up to two years ago it was exceedingly difficult to move any of this product, the onions not being popular, but with reduced supplies of any other kind of onions these are taken and at a good profit. Importers who have purchased on the Liverpool market have sold their purchases at a profit of nearly \$1 per sack.

**GENERAL BUSINESS TOPICS.**  
**OCEAN POWER.** From time to time statements are made in regard to wave motors, but hitherto no device of this nature has proved successful. There is, however, no reason to doubt that like the airship, a successful wave motor will before long become an accomplished fact. It is difficult to realize what an immense effect this would have on the cost of power which could then be supplied at an exceedingly low rate to all points within a hundred miles, or even more, from the ocean. The very fact that it is such an immense project makes the investing public skeptical, and renders it difficult for inventors to obtain financial backing.

The latest invention of this kind may have been in the shape of a working model, at the exhibition on East Second street. It is known as the Wright wave motor, and belongs to the Los Angeles Ocean Power Company, whose office is in 88 Broadway block. The company has issued a prospectus, in which the statement is made that Los Angeles city now consumes more power than any other city in the world, and that the mechanical horse-power, at an average cost of not less than \$100 per horse-power per annum, while it is estimated that the cost of power supplied by means of the motor at the cost of less than \$30 per horse-power per annum or at a cost of less than \$15 per horse-power on the coast. The cost of constructing and installing a wave-motor plant on the coast and a suitable electrical plant in connection therewith, to deliver into Los Angeles 1000 horse-power, is estimated at about \$150,000, and the annual charges at not more than \$24,000, or \$24 per horse-power. The company claims that one effective horse-power can be developed for every foot of ocean frontage, and the company now claims to have under its control 5000 feet of ocean frontage.

In the working wave motor plant the following will be the method of construction and installation. A wharf running at right angles to the beach will be constructed, running out to a point where the average wave movement is obtainable; that is, to a point about where the swell usually begins to break, from which point a wharf with metallic pipe piles will be constructed, running parallel to the beach and following along the line of the best average wave movement. Each of the piles will be of iron pipe, and will serve as a pump cylinder as well as a pile; and attached to the wharf, side by side, will be a series of ocean, and three or more deep, the motor floats will be installed. To this wharf will be attached merely the masts, floats and pumps, and the motor floats will be connected by supply and suction pipes with the electric generators in a tank, which with the water which will be located and installed upon the high bluff on the beach in the power-house, where the entire electric-generating plant will be located. Thus the reciprocating action of a great number of floats, distributed along the ocean frontage and pumping into one storage tank, will of itself, largely equalize the power delivered to the pressure tank.

The constant power of the ocean, working day and night, makes it possible at hardly any extra expense, to make the same power available during each twenty-four hours. For instance, the power will be divided into circuits as follows:  
First—A mechanical circuit in which power will be required from 6 a. m. to 6 p. m.  
Second—An electric-lighting circuit in which power will be required from 6 p. m. until midnight.  
Third—An electric railroad circuit in which power will be required from 6 a. m. until 1 a. m.  
Fourth—A pumping circuit in which water will be pumped by the motor floats from wells into reservoirs, and in which no steady power will be necessary. All surplus power, when cut off from the other circuits, will be used to power created by excessive wave movement, can be used upon this circuit.

Attention is also called to the great possibilities in the line of irrigation from the use of this cheap power for pumping purposes.  
It remains to be seen whether this latest invention will prove a success or a failure, as so many previous inventions of the kind have been. Of the vast importance of the idea there can be no doubt, nor is it conceivable that in this age of wonderful mechanical ingenuity, the successful harnessing of the ocean waves is an impossibility. It is evident that we are on the eve of wonderful developments in the line of cheap power. Not to mention the utilization of mountain streams and rivers, for the development of electricity, which can be furnished at a long distance, there are several new inventions now under trial which promise to reduce the cost of power to nominal amounts. Such, for instance, as the utilization of air, which is claimed to be self-acting, and which entails no cost whatever for fuel, and the wonderful perpetual-motion machine, which is being invented, described in The Times of Sunday week.

That the introduction of such cheap power will result, temporarily at least, in depriving a vast number of people of manual employment, appears evident; also that the production of manufactured articles will be vastly increased, and will for a time go ahead of the supply. That, however, is another story.

## PASADENA.

## A "DEFENSE FUND" BEING RAISED BY TERMINAL ADVOCATES.

It is to be used to Defeat the Electric Road Proposition—Two More Runaways—Credible Exhibit by Throop Students—News Items and Personals.

PASADENA, May 19.—[Regular Correspondence.] The advocates of the Terminal franchise are engaged in raising a "defense fund" with which to protect the people of Pasadena from the threatened reduction of taxes and improved street railway service which would result from the acceptance by the Council of the electric road's proposition. A subscription paper is being circulated, and it is said that the funds thus raised will be used to pay the expenses of carrying the controversy into the courts.

It is not yet apparent how legal proceedings can be instituted unless an effort should be made to compel the Council by mandamus to advertise the franchise desired by the Terminal. Inasmuch, however, as the franchise has the right to either accept or reject all applications for franchises, it is considered very doubtful whether any court would issue a mandamus.

RUNAWAY RECORD.

A runaway occurred late yesterday afternoon, which was attended with serious consequences.

Mrs. W. S. Derby of No. 257 South Main avenue, her two children and her mother, Mrs. S. Derby, were driving on South Fair Oaks avenue, when their horse took fright at a passing electric car, and, wheeling sharply, overturned the carriage. The occupants were all thrown out and little Marjory Derby, Mrs. Derby's seven-year-old daughter, sustained a bad fracture of the leg below the knee. The other members of the party were bruised and shaken, but received no more serious injuries.

The horse ran some distance, and finally collided with an obstacle, received several bad gashes. The carriage was much damaged. Mrs. Derby and her family came to Pasadena from Orange about ten days ago.

Another runaway occurred about 3:30 o'clock this morning. A team of horses hitched to a heavy dray, started on a tear in the alley west of the post-office. They collided with a milk wagon, leaving it much the worse for the encounter, and then dashed out of the alley into Colorado street. Their momentum was so great that the horses were unable to stop. The dray struck the sidewalk on the north side of the street. The wagon pole struck the plate-glass window of the Pasadena Land and Building company, and it was completely shattered. For a wonder the horses were not cut by the falling glass. The cost of replacing the broken window will probably be about \$50. The owner of the runaway team is W. C. Mason of No. 251 De La Cruz street.

## A CREDITABLE DISPLAY.

An interesting exhibit of the handicraft of students at Throop is displayed in a window of the Carlton Block. Among the articles exhibited are specimens of wood carving, carpentry, iron work, water-color paintings, and crayon sketches. The exhibit is exceedingly creditable, and it affords an excellent illustration of the practical results attained in the manual training department of the Throop school.

## RIVERSIDE COUNTY.

Conductors' Visit Left Bad Taste.

An Editorial Growth.

RIVERSIDE, May 19.—[Regular Correspondence.] The conductors' excursion seems to have left a bad taste in the mouths of some people, judging from the following article in Wednesday evening's Press:

"We understand from some items in the Los Angeles papers and from some remarks made while the party was here, that some of our people were not satisfied with their reception in Riverside Monday. They seemed to expect that a brass band would meet them at the train, that a free banquet would be given to every one of them, that coaches would be furnished gratis for a trip down the avenue, and that a dozen of navel oranges on a silver platter would be placed before each one of the visitors. Considering the size and make-up of the crowd we think ample courtesy was extended. With characteristic enterprise, Frank Miller entertained all he could accommodate at the Glenwood; the citizens of Riverside were glad to have them, and flowers and fruit were freely distributed to the party. The fact is a large per cent. of the excursionists were Los Angeles people, who took advantage of the low rate for a junketing trip. And many others, as we are credibly informed, were little more than legitimate business men, directors of eastern or coast lines who meet the traveling public and can exert their influence in behalf of winter resorts. Riverside is a beautiful place, and we see no reason why a raft of freight conductors and a mob of Los Angeles people should be expected to be treated as if they were the guests of Riverside. Riverside is a beautiful place, and we see no reason why a raft of freight conductors and a mob of Los Angeles people should be expected to be treated as if they were the guests of Riverside."

## MRS. NAOMI BAKER'S THIRD ATTEMPT AT SUICIDE.

A Small Boy Poisoned by Drinking a Bottle of Hives Syrup—School Census Returns—Rumors of Railroad Building.

SANTA ANA, May 19.—[Special Dispatch.] Mrs. Naomi Baker of Los Alamitos attempted to take her life in Santa Ana at 6 o'clock this evening, by swallowing an ounce of laudanum, but failed in the effort. This third time Mrs. Baker has tried to kill herself, the previous attempts being at Alamitos, each time with laudanum.

This evening she was seen to put a bottle in her mouth while walking up Walnut street; she then crossed over to a walnut orchard where she calmly crossed her hands over her breast and sat down in the shade against a tree to await results. Neighbors saw her and upon investigation learned what she had done.

A physician was hastily called and an emetic saved her.

Mrs. Baker left the following note wrapped around the bottle containing the deadly stuff:

"My dear friends: I will say good by. My children are too great and I must end them. I hope I have good luck. I must go."

He was near by securing a drink of water, and he further professes to have been enveloped in flames. He did not hear any explosion, and is of the opinion that no explosion occurred, although he is unable to say so positively. He is alleged to get from a position eight or ten feet away near enough to the bed to cover his wife and the bedding with his arms, and he says that he was shocked to find Greenbury, accompanied as it was by a temporary aberration of mind, indicates that his recollection of the facts in the tragedy is not very accurate.

## MORE RAILWAY CONDUCTORS VISIT THE ISLAND.

Southern California Hotel-keepers Enjoying Themselves at Avalon. Distinguished Guests at the Metropole—Heavy Catches of Yellowtail.

AVALON, May 19.—[Regular Correspondence.] The members of the Southern California Hotel Men's Association came over Tuesday, and it goes without saying that men, a part of whose vocation is to make life pleasant for others, will, when off for a holiday together, get the full limit of fun. To attain this end it is only necessary for each one to imagine that he is, as usual, the host, and his companions are his guests.

Immediately after lunch the Linda and Sunbeam took the excursionists down to Seal Rocks. On the return trip a twenty-five pound yellowtail was caught by one of the Linda crew. Avalon the fish was suspended from a long pole, and eight men, with the pole on their shoulders, marched through town to the Metropole. On disembarking the Sunbeam party gave three cheers for Capt. Foster, owner of that craft, in recognition of the company trip.

In the evening the members subsided long enough to hold a business meeting in the parlors of the Island Villa, Redondo, which Prof. G. Wharton James of Pasadena gave an enjoyable series of stereoscopic views of the visit of the National Hotel Men's Association to Southern California last year.

This morning, Carragher & Beasley tendered them the use of their trail animals and the party, half of whom were ladies, went up the new stage road to the loop, a mile and a half from town. Before starting they were photographed. Others fished and took in the glass-bottomed boats. The party leaves today.

"I have this day paid over to M. L. Aldridge, City Treasurer, \$10,369.99, account of the settlement of balance of different funds of the city. You will note from my last report to you on April 30, 1897, the totals of the different funds were \$13,712.07. Deducting balance of First National Bank certificate, \$3346.08, it leaves a balance of \$10,365.99, which amount I have paid to Mr. Aldridge. Mr. Aldridge, by advice of his attorney, has refused to accept of the same, and has demanded that I give him a proper receipt, and I now offer this amount to apply to a part payment of the First National Bank certificate, and I would like

## NORRIS BOUND OVER.

Charged with the Seduction of a Girl at Lordsburg.

Deputy District Attorney Frank R. Willis returned from Pomona yesterday, where he had been representing the people of the State of California in the case against Harry C. Norris of Lordsburg, charged with seduction.

Norris was accused of seducing a fourteen-year-old girl by the name of Gertrude A. Carter at Lordsburg some time last year. Norris is about 19 years of age, and had, but a short time before the alleged seduction took place, been released from the State School at Whittier.

The complaining witness said Norris had taken her out riding frequently and was profuse in his promises of marriage. At one time he had persuaded her to get out of the carriage and when she had done so, she says, he proceeded to accomplish his purposes. Norris's defense was that the girl was not chaste, but the testimony showed that if she had not walked in the paths of virtue since she met Norris, she had done so before.

Justice Barnes, before whom the examination was held, bound Norris over to appear before the Superior Court in bonds of \$1500.

## ATHLETIC CLUB.

An Annual Meeting and Nomination of Directors.

The members of the Los Angeles Athletic Club met in open session last night for the purpose of nominating directors for the ensuing year, with the result that the following named eighteen candidates are in the field for election: on June 3: John E. Brink, H. C. F. Smith, J. D. Wiley, Robert Todd, M. M. Shields, Will Knippenberg, John S. Thayer, John W. Mitchell, Thomas Darnoldy, E. W. Sargeant, H. R. Bingham, Dr. W. F. Kennedy, J. W. Winston, Robert T. Brain, Edmund Germain, J. Phil Perceval, J. H. Harrington and A. C. Way.

The secretary read a statement of the financial condition of the club, showing the institution to be in a prosperous condition. The statement showed the club's indebtedness to be melting away at the rate of about \$200 a month. A vote of thanks and appreciation of the members of the club was tendered President Brink and the officers of the club for the able and business-like manner in which its affairs have been conducted. The statement shows the past year to have been the most prosperous in the club's history.

Green Was a Cadet Captain.

William H. Green, the "graduate" of the Whittier State School who a few days ago married Mrs. E. J. Wilson, one of the teachers of the institution, was a cadet captain. He was placed in charge of the company which contained the largest and oldest boys. Before their departure from the school, Superintendent John E. Coffin and Assistant Superintendent W. V. Coffin gave Green letters of recommendation which spoke of him in warm terms of praise.

## MUSICAL MENTION.

The concert given by the Apollo Club at the Los Angeles Theater last evening, for the benefit of the unemployed, was an eminently successful affair from every point of view. The audience, which was large and enthusiastic, was made up largely of society people, the lower boxes and loges being occupied by three of the festa queens and their parties. Mr. and Mrs. Ozro W. Childs had the two boxes on the right, their guests being Mr. and Mrs. John Bradbury, Mr. and Mrs. Frank S. Hicks and Mr. and Mrs. Richard P. Blaisdell, whom they afterward entertained at supper at the California Club. Mr. and Mrs. Mark B. Lewis had the two loges on the same side of the stage, their guests being Mr. and Mrs. T. E. Gibbon and the Misses Eleanor Pattee, Lila Fairchild, Helen Fairchild, Sara Innes, Bessie Bryan, Harriet Smith and Helen Klokke. The two boxes on the opposite side of the stage were occupied by Miss Francisca Alexander and her party, consisting of Mr. and Mrs. F. K. Rule, Mr. and Mrs. F. J. Thomas, Dr. and Mrs. Granville MacGowan and Mrs. Alexander. Another party included Mr. and E. D. Silent, the Misses Florence Silent and Rose Newman and Mr. Newman.

The programme was very enjoyably rendered, the club showing an immense amount of improvement over its last appearance, its numbers being given with considerable precision of attack and increased regard for light and shade. The opening number, "The Bequeathed" (Arthur Sullivan), "A Father's Lullaby" (C. M. Fish), "Abt's 'Ave Maria'" with soprano solo, and Dudley Buck's "On the Sea," were especially well sung, the last meeting of the club, which was a pathetic and ever-popular ditty, "Simple Simon." The club was assisted by the following named soloists: de Semario, soprano; Herr Carl Walthers, violin; and F. W. Wallace, bass.

Mme. de Semario, with her sweet and sympathetic voice and charming personality, was a very delightful part of the programme, and her numbers were followed by recitals, flowers and a well-deserved encore, which was responded to with that pathetic and ever-popular ditty, "Simple Simon." ## Christ's Second Coming.

That at Christ's second coming it will be a real, visible and personal Savior who will appear among men, was the declaration made yesterday afternoon by Rev. W. W. Mumford, who told the congregation of 800 people which was gathered in Simpson Tabernacle that this is an imminent coming, so far as his knowledge goes. Only God knows the hour of it. He declared that mankind may hasten the hour of Christ's coming by faithful, hard work for God. In the evening the sermon was on spiritual blindness. The explanation offered was that those who are spiritually blind are incapable of being aware of their affliction. The attendance at the children's meetings is growing daily. The children are not allowed to sign the cards, pledging themselves to lead a Christian life until they have taken them home and shown them to their parents.

## Engineers and Architects.

The May meeting of the Engineers' and Architects' Association was held last night at the association hall in the Wilcox building. An interesting paper on "The Water Measurements of the Los Angeles River" was read by A. S. Campbell, C.E. This was followed by a discussion of various water-measuring devices, participated in by members present. Other subjects of professional interest were discussed.

## Missing Conductors Found.

## First Transmississippi Delegate.

The Board of Trade has taken the initiative in appointing a delegate to the coming Transmississippi Congress. President Daniels yesterday appointed H. C. Dillon as representative of that body.

Seemingly sane women are every day dragged down into an engulfing ocean of despair, because they try to fight disease without help. They wear their whole bodies out bating with some debilitating disease of the organs distinctly feminine. They become weak and pale and thin and worn, enduring a martyrdom of pain.

Help is at hand for those who choose to take it. Dr. Pierce's Favorite Prescription will infallibly cure womanly ills. It is designed for that purpose alone. It acts directly and quickly on the organs involved and restores them to health and vigor. This is proven by the triumphant record of tens of thousands of cures. It is successful when all else has failed. After the abortive local treatment of the doctors have proven useless, the "Favorite Prescription" does its marvelous work, bringing comfort and happiness. It is the one thing that can always be depended upon.

Mrs. Eugene Stantenberg, of No. 160 Walker Avenue, Houston, Texas, writes: "With a most thankful heart I will tell you about the wonderful cure effected in the case of my mother. She has been a perfect wreck for seven long years. Her words can describe what she has suffered. Could not sleep on account of severe pains. Told the truth, she has lived with one foot in her grave. She tried every doctor around here and spent hundreds of dollars without benefit. After hearing of your wonderful remedies I wrote to you. My mother has taken six bottles of the 'Favorite Prescription' and six of the 'Golden Medical Discovery' and is now perfectly cured."

The Royal—White and Pure as the Driven Snow.

Crushed by a Wagon.

Valentine Klass died yesterday from the effects of being run over by a heavy brewery wagon. Klass was a driver for the Pabst Brewing Company. Monday he fell from his wagon, and the wheels passed over his abdomen. There was severe injury to his internal organs, and at 7 o'clock last evening Klass died from the effects of the accident. He leaves a wife and children. The funeral will be on Friday, from the undertaking parlors of Booth & Boylen. The home of the dead man was at No. 715 Stevenson avenue.
